This powdered detergent contains a balanced blend of special surfactants, builders, and citrus extracts to quickly strip grease, oil, dirt, grime and other deposits from concrete floors and other washable surfaces. This formula is safe to use on most surfaces including wood, plastic, metal and painted surfaces.

DIRECTIONS

FOR CONCRETE: For heavy grime and severe oil staining, wet floor with clean water, then sprinkle detergent powder directly onto soiled areas. Scrub with stiff broom, and allow to penetrate until deposits are loosened. Rinse floor with clean water.

Light cleaning requires 16 to 32 ounces (2 to 4 cups) of detergent per 5 gallons of water. Difficult soils may require a stronger solution. Swab onto surface and allow to penetrate for 5 to 10 minutes, scrubbing with bristled broom. Rinse thoroughly with clean water. Use this detergent with care on finished floors, as some floor finishes are not detergent resistant and may be removed by this cleaner.

FOR GENERAL CLEANING: Use 4 to 16 ounces (1/2 to 2 cups) of detergent per 5 gallons of water. Sponge, mop, or spray solution onto surfaces to be cleaned, and agitate if necessary to remove soil.

FOR SOAK TANK DEGREASING: Use up to 1/2 pound per gallon of water. Hot water will provide optimum cleaning conditions. Cleaning will be faster in agitated tanks and when fresh solutions are used. Dry all cleaned parts to prevent flash rusting.

CAUTION

May be harmful if swallowed. May irritate eyes.

FIRST AID

IF IN EYES: Flush eyes and under eyelids for at least 15 minutes. If discomfort persists, see a physician.

IF ON SKIN: Wash with soap and water. Remove contaminated clothing and laundry before reuse. If irritation is persistent, contact a physician.

IF SWALLOWED: Contact physician or poison control center immediately. Give affected person 1 to 2 glasses of water.

IF INHALED: Remove person to fresh air. Obtain medical attention if symptoms of allergic reaction appear within 12 hours.

See M.S.D.S. for complete safety information.

KEEP OUT OF REACH OF CHILDREN

Handling & Storage: Keep container tightly closed when not in use. Do not store in unmarked containers. Do not mix with any other chemicals. Store container in cool, dry place. Keep away from acids and strong oxidizing agents.
